Grenoble:

here are the answers to your questions for Grenoble INP Ensimag:
1. your student can apply at Ensimag, and choose some courses offered by another Grenoble INP school in another engineering domain.
   BUT : there is no guarantee that it will be feasible : timetable conflicts, different campuses so it is a possibility, but it can only be verified upon arrival, when the student is in Grenoble.

   No possibility to choose courses from other domains (apart from engineering), as we are not a comprehensive university (the other fields of study are taught at other independent universities - we have 4 universities in Grenoble)

2. at Ensimag we do not require any proof, we trust you!
