TRONDHEIM:

Generally, we tend to be flexible and let incoming students choose courses from different areas, provided that they have the necessary previous knowledge. However, students in technology and Architecture must have completed a bachelor / 3 years at their home institutions before arriving in Trondheim. The reason for this is that the normal language of instruction at bachelor level is Norwegian, while we have a wide range of courses at master level that are instructed in English.

Required language skills for students coming to NTNU is Minimum English B2. We will accept a letter from you confirming the level.
